

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

LIST OF STATUTES IN FORCE, OTHER THAN THOSE INCLUDED IN THE CODES, AND OF THE AMEND- MENTS THERETO, WITH REFERENCES TO DECISIONS RESPECTING THEIR CONSTITUTIONALITY.

NOTE.—From this list (except as mentioned below) are excluded all statutes which can no longer be regarded as of any substantial effect, either because directly or impliedly repealed by the Codes, or otherwise, or which, though not so repealed, have accomplished their purpose and have no other effect than to justify acts long since done by their authority, such as appropriation bills, grants of franchises, or of rights for a limited period, or directions or authorizations to perform acts which have doubtless already been done, or to contract obligations which have been satisfied, and statutes creating and providing for the government of municipal corporations, which have become inoperative by the reincorporation of the same municipalities by or under subsequent statutes, either general or special.

In accordance with the directions contained in the statute creating the present commission, however, there has been noted in this list a number of statutes which are not in force, and in each such instance there has been noted the statute superseding or expressly repealing the same, and such decisions of our Supreme Court as may be useful in determining whether such statute is unconstitutional or no longer in force.

No index of this list has been prepared, as recourse can be in the first instance had to the general indexes of 1850-1893 and 1893-1903, to ascertain the title, year, page, and chapter of the statute sought, and, with the aid of the data thus obtained, it can be easily ascertained whether it is included in this list of the statutes in force.

This list is not in any sense authority, and in that regard it has no higher sanction than had the "volume of statutes continued in force," compiled by the Code Commissioners in 1873 (*Needham v. Thresher*, 49 Cal. 392).

1850.

Page.	Chap.	
131	49	Concerning lawful fences. Repealed as to many counties by the statute of 1855, p. 154, from which, however, Amador, Butte, Calaveras, Colusa, Klamath, Nevada, Placer, San Bernardino, San Diego, Santa Barbara, Shasta, Siskiyou, Trinity, Tuolumne, and Yuba Counties were omitted. The statute of 1855 was afterward amended to include Butte, Calaveras, and Nevada. Special acts were passed relating to other counties, but the statute of 1850 has apparently not been repealed as to Amador, Klamath, San Diego, Santa Barbara, Siskiyou, and Trinity counties. Section 19 of the Political Code continued in force all laws in relation to lawful fences which were in force at the time that section was enacted.
203	83	Prescribing the mode of maintaining and defending possessory actions on lands belonging to the United States. Repealed 1852: 158.
247	100	Relating to bills of exchange and promissory notes. Probably not in force in any particular. See <i>Kendall v. Parker</i> , 103 Cal. 319.
273	117	To provide for the incorporation of colleges. Amended 1855: 110; 1867-8: 69, 218; 1869-70: 419; 1873-4: 85; supplemented 1863: 775; 1871-2: 10. Section 288 of the Civil Code repealed this act, together with other acts affecting corporations, but provided that corporations which were in existence at the time the codes went into effect might remain subject to the laws under which they were formed. It may therefore perhaps be doubted whether the amendment of 1873-4, p. 85, which was passed after section 288 went into effect, is of any validity, seeing that it purports to amend an act already repealed.
342	125	To abolish all laws except those passed during the present session.
